PREFACE

WORKS registered in the Copyright Office in Class A, Books, are divided between Part 1A (Books) and Part 1B (Pamphlets, Serials, and Contributions to Periodicals) of the *Catalog of Copyright Entries*, with the exception of greeting cards, which are listed in Parts 7-11A.

This catalog, Part 1A, lists domestic and foreign books and pamphlets, registered under the symbols A, AF, and AI, which have been selected for the general collections of the Library of Congress. They constitute, in general, the current output of the book publishing industry of the United States and the works of foreign origin of present or potential interest to the American book trade. Part 1A includes trade books (novels, poetry, biographies, travel books, children's books, etc.), scientific and technical books, reference books, dissertations and monographs of scholarly importance, books issued by university presses, and other similar monographic works. Printed Library of Congress cards are available for all items listed in this catalog. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress, Washington 25, D. C.

Part 1B lists all other works registered in the Copyright Office in Class A, usually distinguished by the symbol AA. These are predominantly of a pamphlet or serial nature and comprise a wide variety of domestic and foreign works. Pamphlet material includes reports, surveys, manuals, instruction books, tests, as well as other monographic works in all subject fields. Typical of the serial material are yearbooks, directories, trade catalogs,

commercial, industrial and legal services in loose-leaf or pamphlet form, etc. Included also in the catalog are registrations of copyrightable printed matter which appears upon materials of diversified physical form. Contributions to periodicals registered in Class B under the symbol B5 are listed in Part 1B, except for those of a musical or cartographic nature, which are listed, respectively, in Parts 5A, Published Music, and 6, Maps and Atlases.

Works listed in the first section of Part 1A were registered in the Copyright Office from January 1, 1952, through June 30, 1952. Renewal registrations for works originally registered in Class A are listed in the second section of this catalog, except for renewals of contributions to periodicals, which are included in Part 1B.

Arrangement.—This catalog is divided into four sections. The first section consists of complete entries for currently registered works arranged alphabetically under main headings (author, editor, compiler, or title) and of brief entries in the form of cross-references from joint authors, editors, etc. The second section, similarly arranged, lists renewal registrations made in Class A. The third section is a "Title Index" to both current and renewal entries. The fourth section, the "Claimant Index," lists the names of the persons or organizations named in the applications as copyright claimants. In both title and claimant indexes, references to renewal entries are distinguished by the symbol R following the title.

Bibliographic Data.—Under its heading each main entry for works currently registered includes,

as applicable, 1) the title as given on the title page; 2) the names of all joint authors—unless there are more than three, in which case only the first is given—illustrators, editors, compilers, translators, and authors of prefatory material; 3) the edition statement, together with available information of previous publication under a different title; 4) the imprint, consisting of place of publication, name of publisher, and date of publication (name of publisher is omitted from the imprint when it appears in the copyright statement as the name of the copyright claimant); 5) the collation, consisting of pagination or number of volumes and the abbreviation “illus.” to indicate any illustrative matter not shown elsewhere in the entry; 6) the series; and 7) the application authors (i. e., the names of any authors listed in the application that do not appear elsewhere in the entry).

When an employer in the case of works made for hire is named in the application, his name is included in the entry, together with the names of the employees when given.

Renewal main entries include the following data, as applicable, 1) the heading; 2) the title; 3) the names of all authors of renewable matter; 4) the edition statement; 5) the number of volumes if more than one; and 6) the series.

Each brief—entry cross-reference consists of the name of the joint author, illustrator, editor, or other and the title of the main work, followed by reference to the heading under which the complete entry will be found.

Copyright Data.—For works currently registered the portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the application; 2) the name of the copyright claimant; 3) the date of publication as given in the application, which represents also the year date given in the copyright notice unless the date of publication is followed, in parentheses, by the statement, “in notice,” and a different year date; and 4) the registration number.

For ad interim works, the date the work was deposited in the Copyright Office, preceded by the abbreviation “1c” or “2c,” is also given. In the case of American editions of works in English previously published abroad, any information contained in the application which relates to the regis-

tration of the earlier version of the work is given in brief form at the end of the entry.

For renewal entries, the facts of copyright registration begin with the copyright symbol ©. This is followed, as applicable, by 1) a brief statement of the new matter on which copyright is claimed when the information can be secured from the renewal application or the records of the Copyright Office; 2) the date of original copyright; 3) the original registration number; 4) the renewal registration number; 5) the date of the receipt of renewal application; 6) the name of the renewal claimant; and 7) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog of Copyright Entries*, except for renewal copyrights, the deposit of copies (or copy) as required by section 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: “The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

Organization of the Catalog.—This issue of the *Catalog of Copyright Entries* is part of Volume 6 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the “Table of Organization,” which faces the title page in this catalog. In each case, the first letter of the symbol is that of the class under which registration is

made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215 of Title 17 of the United States Code are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated in the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog of Copyright Entries* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue

until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
